1.8 Help/FAQ

This information can also be viewed from the *K12 Payment Center* website by clicking Help/FAQ.

1.8.1 Frequently Asked Questions

What is my child's Student Number?

The **Student Number** is a unique number assigned by your school district office. (It is usually not the same as the 3 or 4-digit lunch number that is used in the cafeteria.) It is usually printed on report cards and correspondence that you receive from the school. Please contact your district office if you do not know what number to use.

Why are there fees for this service?

The fees cover the costs of maintaining the secure website and the fees that are charged to us for processing credit card payments. School districts usually do not have funds available for this type of expense.

What does the service cost?

The cost depends on the level of service (Premium or Basic) that you select and the school district that your students are in. When you select your school district during registration, it will show the fees that apply in that district. You will always be provided with the cost information before any payment is processed.

For **Premium** membership, there is a one-time registration fee. This gives you access to your student's lunchroom balance and meal history, and offers e-mail notification when the account balance drops below a limit you have set. The fee varies per school district.

With **Basic** membership, you can still make payments for meals and school fees online, but you will not be able to look up your student's balance or meal history, and you will not receive Low Balance notifications. The regular payment fees will apply but there is no registration fee. You can upgrade to premium service at any time if the service is available in your district.

When you make Payments, a fee will be added to cover the cost of processing the credit card transaction. One online payment can be split among all of the students attached to your account, with no additional cost.

What does the processing fee cover?

The payment fee covers the fees that the credit card company charges for processing the transaction. In some areas, the fee is partially paid by the school district.

Do I have to pay a separate registration fee for each student?

No, one registration fee covers all the students in your family who attend school in the same district.

What does the registration fee include?

The registration fee gives you access to your student's lunchroom balance and meal history, and offers e-mail notification when the account balance drops below a limit you have set. It includes all the students in your family who attend school in the same district

How long from the time I register as a New User can I make a lunch payment?

This process usually takes less than a day. Students must be verified before we can accept payments. This can usually be done instantly; however, in some cases it can take up to 24 hours. Once this process has completed, you can make payments directly to your student account from <http://www.LunchPrePay.com>

Why is the verification process necessary for lunch payments?

This is how we make sure that your payment is credited to the correct student's cafeteria account. We check for a match on the student's last and first name, school, and student Number. This can usually be done instantly; however, in some cases it may take up to 24 hours. Once a student has been verified, lunch payments are processed by a service that runs automatically throughout the day.

If it has been more than 24 hours, please contact your school district office and ask for the Student Nutrition Department. They will be able to assist you.

How long does it take for the payment to show at my student's school?

Generally, all lunch payments are applied within 24 hours.

How do I know it is safe to enter my credit card information on www.LunchPrePay.com?

www.LunchPrePay.com has 128 Bit Encryption provided by Thawte. Thawte is the most trusted name in online shopping. All information submitted is protected by our secure server, which automatically encrypts your personal information so that it cannot be read while traveling over the Internet.

What do I do if I do not see all my students listed on the payment screen?

If all the students you have entered do not show up on the payment screen, it is possible the information you supplied could have been typed incorrectly. Please go to the **Manage Student** page and check the student's first and last name, school, and **Student Number**. Correct any errors and save your changes. This student account will be available as soon it is verified with the school's information.

Why do I not see my district's name listed under Participating Schools?

If your district name is not listed under the **Participating Schools** page, then they have not signed up with Education Management Systems, Inc. to participate in *K12 Payment Center*. Please encourage them to contact us.

What if my student's school is not listed?

If your student's school is not listed in the dropdown box you will need to check with your school district directly. They will be able to tell you if the school will be added to our program.

How do I set up a low balance notification?

Go to **Manage Profile** and enter the **Low Balance** amount.

Check **Send Notifications**. You will receive an e-mail when the balance drops below the amount you set. (You must have Premium service to use this feature.)

How do I find out what my student has been buying for lunch?

On your home page, click on **Meal History** next to the student's name. (You must have premium service to use this feature.)

How do I pay School Fees using K12 Payment Center?

Log in to your www.LunchPrePay.com user account. It doesn't matter whether it is Premium or Basic. If you have verified students associated with your account, any fees that the school has assigned to your students will display. If your school or district has other fees that are not student specific, those can be viewed by clicking on "View All Fees."

Click **Add** to select the fees to be added to your shopping cart. You can enter multiple quantities if desired.

Click **Shopping Cart** to view the list of items.

Click **Make Payment** to process your payment. The school will be notified that the payment has been made.

What if I forget my user name or password?

Click on **Forgot Login Info?** on the Login screen. Send us your registered e-mail address and we will send you a return e-mail with your information.

What if I can't remember what e-mail address I used or it is no longer available?

Contact your school district administrator and they will assist you.

I know that my student should have meal history or money in their account, so why does the balance show N/A?

There are a couple of reasons that *K12 Payment Center* displays balance as N/A. The most likely reason is the link between our website and the school's cafeteria server was broken during a nightly upload. When this occurs, we display N/A to avoid showing inaccurate information or because no information is available.

What if I am currently using *K12 Payment Center* and am transferring to/from another district that also uses *K12 Payment Center*?

Please send an email to ContactUs@LunchPrePay.com, requesting your school district to be changed. Please provide your username and email address when contacting us. The change will be made within 24 hours. **PLEASE NOTE: THIS IS NOT THE SAME AS CLICKING ON CONTACT US ON THE WEBSITE.**

Any money left in your student's account cannot be transferred between districts. You must withdraw any outstanding balance from the school cafeteria you are leaving. Contact your student's cafeteria for more information.

I have a question about one of the charges on my student's account. How do I dispute it?

If you suspect a cashier error or wonder if another student may be borrowing your student's account number, please contact your school district directly.

I'm getting some sort of error while trying to make a payment. What do I do?

It's possible that your credit card information that you've entered on the website does not match the information on file with your credit card company. Delete and re-enter your credit card information, paying particular attention to your address and name. If that does not work, send an email to ContactUs@LunchPrePay.com.

PLEASE NOTE: THIS IS NOT THE SAME AS CLICKING ON CONTACT US ON THE WEBSITE.

If I make payments in the cafeteria, will they appear on [LunchPrePay.com](https://www.lunchprepay.com)?

When you view **Payment History**, the page only displays the payments made through our website. Any payments made in the cafeteria will be shown on the Meal History page for each student.

Why do I sometimes get an error while making a payment, and then find a charge on my credit card anyway?

All credit cards are processed through a third-party service that verifies all the credit card information and payment amount. The service verifies that your name, address, card number, and card code match exactly to what your credit card company has on file. If there is a mismatch, the service sends a message to us that the charge failed. Depending on your credit card company's policy the payment amount may still show as a Pending or a Temporary Hold against your account. Again, depending on your

credit card company's policy, it may take a day or two for the temporary hold to be removed. Please note that *LunchPrePay.com* has no control over this process.

- Enter the email you would like *K12 Payment Center* to contact you with if necessary in the **E-mail** text field.
- Enter your first name in the **First Name** text field.

- Enter your last name in the **Last Name** text field.
- Enter your address in the **Address 1** and **Address 2** text fields.
- Enter your **City, State** and **Zip Code** in the appropriate text fields.
- Enter your phone number in the **Phone** text field. It will automatically be formatted.

Why do we need name and address here since it is also listed with the credit card information?

Name and address are required here in case we have to contact the parent about their account. The credit card information is **ONLY** used for processing payments. It is not available to the District Administrator or *K12 Payment Center* support staff.

- Enter a password for your account in the **Password** text field.
- Enter the same password in the **Confirm Password** text field.
- Select a security question from the **Security Question** dropdown list. If you select **Write your own question...** enter the question in the text box below.
- Type the answer to the security question in the **Answer** text field.

LOW BALANCE NOTIFICATIONS

- Check the **Send Low Balance E-mail Notification** box if you would like receive notifications for low balances. If the box is checked, enter the following:
 - The amount at which you want to be notified.
 - Your mobile number and carrier if you would also like to be texted for low balances.

SCHOOL FEE NOTIFICATIONS

- Check the **Send School Fee E-mail Notifications** box for notifications when any school fees have been assigned to your child(ren).
- Select a **number** of days in the dropdown list if you also want an email notification sent that many days before the due date.

2.5 Manage Wallet

This feature is optional and allows the user to save credit card information so it does not need to be retyped every time a payment is made.

- On the Manage Wallet page, click **Add New Account**.

The screenshot shows the 'Manage Wallet' page. At the top, it says 'K12PaymentCenter accepts payments from Visa, MasterCard, American Express, and Discover. Save time making payments by storing account information in up to 5 secure Wallet accounts.' Below this, it states 'Your wallet does not contain any accounts.' At the bottom, there is a large orange button labeled 'Add New Account'.

- The form will appear to add a new account.

The screenshot shows the 'Manage Wallet' page with the form to add a new account. The form includes the following fields:

- To set up another account, click **Add New Account**. Up to five accounts can be saved.
- To delete or change an account, click **Edit**.
 - There will be a **Delete Account** option if no recurring payments are attached to the account.

2.6 Manage Students

Parents can **Add** or **Delete** students or modify student information in **Manage Students**. *K12 Payment Center* will verify that the information provided is correct.

Student Number	Student Name	School	Verified	Edit
1290168	RODNEY CORBETT	Southern Alamance High	✓	Edit
1478756	MAKAYLA CORBETT	Southern Alamance High	✓	Edit

Add New Student

Why do students need to be verified?

This is done to ensure that a *POS* account exists for this student and that the correct student gets credit for the payments.

1.6.2 Add New Students

- Click **Add New Student**.

Manage Students

Add New Student

District 123 assigns an 8 or 9 digit number to each student. This number can be found on your student's schedule or report card. If you are unable to obtain this number please contact your student's school directly.

Student Number:

First Name:

Last Name:

School: ▼

Save Student **Cancel**

- Enter the **Student Number**, **First Name** and **Last Name** in the respective text fields and select the School from the **School** dropdown list.
 - Student Number** and the student's **Last Name** must match the school records exactly.
 - The **Student Number** digit length is determined by your district.

Why do we require an exact match on last name and student number?

For security, we require that the parent provide at least these two pieces of information.

Then the verify feature can be used to fill in the first name and school. This makes the registration process easier if parents are not sure exactly how their child's first name is spelled in the school records, while still providing confidentiality.

- Click **Save** and it will search the database for a match.

- If a match is found, click **OK**. It will be verified immediately and the account will be ready to accept payments.
- If no match is found, the student cannot be instantly verified.
 - Verify the **Student Number** and **Last Name** are entered correctly
 - K12 Payment Center* will automatically attempt to verify the student when the auto-updates run.
 - If it is not verified with 24 hours, please refer to Verifying Students.

- Click **OK** to return to the **Add New Student** page.

2.6.2 Edit Existing Students

- Click the **Edit** button on that student's line.
- You will get a screen similar to the new student setup.

- Once a student is verified, Grade and Teacher fields will display and automatically populated if information is available. These are read-only.
- Update the information and click **Save**.
- You can also **Delete** students on the Edit screen.

NOTE: If a Student Number needs to be changed on a student that is already verified, you will need to delete that student and add as a new student.

2.7 School Fees

A parent can select school fees to be paid in LunchPrePay.com. Any K12 Payment Center user can make payments for school fees associated with any site.
